Change in Multi-rating list - Now “Comparison report”

2025-04-16 - Sara Marie Libråten - General

The multi-rating list has recently been updated and is now called “Comparison Report”.

At the top of a project, you will now see a new blue button with the text “Generate comparison report”. When you click on this, you will be taken to the Comparison Library. Here you can generate the same type of report that was previously known as the multi-rating list.

Below you will find a complete guide that shows you step by step how to navigate the system and retrieve the report.
